# TWO TRUTHS & ONE LIE!

Use your math skills to determine which of the three statements below is a dirty lie! Explain how you made your decision.

$$\text{chocolate donut} = 7 \quad \text{pink donut} = 9 \quad \text{purple donut} = 12$$

1  $\text{purple donut} \times \text{chocolate donut} - \text{pink donut} = 75$

2  $\text{chocolate donut} + \text{purple donut} \times \text{pink donut} = 171$

3  $\text{purple donut} \times \text{purple donut} = 144$

My Answer: \_\_\_\_\_

Key: 2
