# TWO TRUTHS & ONE LIE!

Use your math skills to determine which of the three statements below is a fib! Explain how you made your decision.

A

B

1) **Graph A** represents $y < -\frac{1}{2}x + 4$.

2) **Graph B** represents $y < \frac{1}{5}x + 7$.

3) The point $(0,4)$ is in the solution set of both graphs.

My Answer: _____

Key: 3
