# BATTLE OF THE ALAMO DAY!

Battle of the Alamo Day, observed on February 23<sup>rd</sup>, commemorates the first day of the historic twelve-day siege in 1836, where a small group of Texan defenders bravely held out against the Mexican army at the Alamo mission in San Antonio, a defining moment in the Texas Revolution.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$90 = \text{Alamo Mission} \times \text{Cannon}$$

$$110 = \text{Alamo Mission} \times 11$$

$$\text{Santa Anna} = 14 - \text{Cannon}$$

$$\text{Mexican Flag} - \text{Santa Anna} = 96$$

$$\text{Mexican Flag} + \text{Alamo Mission} + \text{Cannon} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Alamo=10

Davy Crockett=5

Cannon=9

Flag of Mexico=101

**?=120**

**Fun Fact:** Davy Crockett, a legendary American frontiersman, and former congressman, is famously remembered for his heroic stand at the Battle of the Alamo, where he fought valiantly and became a symbol of courage and sacrifice in American folklore and history.
