# BATTLE OF THE ALAMO DAY!

Battle of the Alamo Day, observed on February 23<sup>rd</sup>, commemorates the first day of the historic twelve-day siege in 1836, where a small group of Texan defenders bravely held out against the Mexican army at the Alamo mission in San Antonio, a defining moment in the Texas Revolution.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$306 = \text{Alamo Mission} \times \text{Cannon}$$

$$50 = 3 \times \text{Alamo Mission} - 1$$

$$\text{James Bowie} = 12 \times \text{Cannon}$$

$$\text{Mexican Flag} - \text{James Bowie} = 784$$

$$\text{Mexican Flag} - \text{Cannon} \times \text{Alamo Mission} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Alamo=17

Davy Crockett=216

Cannon=18

Flag of Mexico=1,000

**?=694**

**Fun Fact:** Davy Crockett, a legendary American frontiersman, and former congressman, is famously remembered for his heroic stand at the Battle of the Alamo, where he fought valiantly and became a symbol of courage and sacrifice in American folklore and history.
