

Name: _____

HAPPY APPLE PIE DAY!

Apple Pie Day, celebrated on May 13th, is a delicious homage to this classic American dessert, embodying the comfort and tradition of homemade apple pie, with its flaky crust and sweet, cinnamon-spiced filling.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Pie} + 7 + \text{Cinnamon} = 103$$

$$92 \div \text{Chef} = 23$$

$$\text{Basket of Apples} - \text{Pie} = 33$$

$$13 \times \text{Chef} = \text{Basket of Apples}$$

$$\text{Cinnamon} - \text{Pie} \times \text{Chef} + \text{Basket of Apples} = ?$$

My Answer: ? = _____

Answer Key:

Apple Pie=19

Basket=52

Baker=4

Cinnamon=77

?=53

Fun Fact: Despite being quintessentially American, the first recipes for apple pie actually date back to England in the 14th century. These early recipes were quite different from today's version, often using unsweetened apples and encasing the filling in an inedible crust. The phrase "as American as apple pie" only became popular in the 20th century, symbolizing American prosperity and national pride, even though the dessert itself originated from Europe. This reflects the cultural fusion that characterizes much of American cuisine.
