

Name: _____

HAPPY AVOCADO DAY!

Avocado Day, celebrated on July 31st, is a day to appreciate and indulge in avocados, a versatile and nutritious fruit known for its creamy texture and health benefits, enjoyed in various culinary forms from guacamole to smoothies.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Avocado} + \text{Avocado} + \text{Avocado} = 15$$

$$\text{Avocado} - \text{Guacamole} = 3$$

$$\text{Guacamole} + \text{Toast} = 10$$

$$\text{Toast} + \text{Avocado} + \text{Guacamole} = ?$$

My Answer: ? = _____

Answer Key:

Avocado=5

Guacamole=2

Avocado Toast=8

?=15

Fun Fact: Avocados are technically a berry, not a vegetable. Botanically speaking, an avocado is a large berry with a single large seed, known as a "pit" or "stone." This classification is due to the structure of the avocado, which has a fleshy pulp and a seed inside, fitting the scientific criteria for a berry. This might come as a surprise given their savory taste and usage in salads, sandwiches, and dips like guacamole, as opposed to the sweet flavor profile typically associated with berries.
