

Name: _____

HAPPY BAKE A CAKE DAY!

Bake a Cake Day, celebrated on February 15th, is a sweet and delightful occasion for baking enthusiasts and novices alike to whip up their favorite cake recipes, experimenting with flavors and decorations to create delicious homemade treats.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Cake} + \text{Mixer} = \text{Oven}$$

$$3 \times \text{Cake} = 36$$

$$\text{Cake} + 2 \times \text{Eggs} = 26$$

$$\text{Mixer} - \text{Eggs} = 14$$

$$\text{Cake} + \text{Oven} + \text{Mixer} + \text{Eggs} = ?$$

My Answer: ? = _____

Answer Key:

Cake=12

Eggs=7

Mixer=21

Oven=33

?=73

Fun Fact: The world record for the tallest cake ever made is 108 feet and 3 inches, created by the chefs of the Mohegan Sun Hotel in Uncasville, Connecticut, in 2004. This towering achievement not only showcased incredible baking and engineering skills but also emphasized the cultural significance and celebratory nature of cakes in human society, often marking milestones, festivities, and communal gatherings.
