# NATIONAL CHERRY DAY!

National Cherry Day, celebrated on July 16th, is a sweet and juicy celebration of cherries, encouraging people to enjoy this delicious and nutritious fruit in various forms and to recognize its culinary versatility and health benefits.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Cherry can} = \text{Cherry pair} + \text{Cherry pair} + \text{Cherry pair}$$

$$\text{Cherry pair} = 7 \times \text{Ice cream cone}$$

$$114 \div 6 = \text{Pie slice} - 37$$

$$\text{Pie slice} \div \text{Ice cream cone} = 4$$

$$\text{Cherry can} - \text{Ice cream cone} \times \text{Ice cream cone} + \text{Cherry pair} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Cherries=98

Cherry Soda=294

Cherry Pie=56

Cherry Ice Cream=14

**?=196**

**Fun Fact:** Cherries are one of the very few fruits that are actually native to both Europe and North America. Cherries have a rich history dating back to ancient times, with references to cherry consumption in Greek, Roman, and Chinese writings.
