# COCONUT DAY!

Coconut Day, celebrated on September 2nd, is a day to appreciate the versatile coconut, a tropical fruit that is a dietary staple in many cultures and used in a variety of culinary, cosmetic, and health products.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Coconut} + \text{Coconut} = 8$$

$$\text{Palm Tree} - \text{Coconut} = 6$$

$$\text{Palm Tree} + 7 = \text{Coconut Drink}$$

$$\text{Coconut Drink} + \text{Coconut} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Coconut=4

Palm Tree=10

Coconut Water Drink=17

**?=21**

**Fun Fact:** Coconuts are not actually nuts; botanically, they are considered a drupe, like peaches or cherries. Coconuts are unique in that they contain water in their young stage, which gradually solidifies into the white flesh as they mature. This "coconut water" is not only refreshing but also packed with nutrients, making coconuts a valuable resource in tropical regions.
