

Name: _____

HAPPY COLORADO DAY!

Colorado Day, celebrated on August 1st, marks the anniversary of Colorado's statehood, commemorating its admission as the 38th state into the Union in 1876, and is celebrated with various events and activities highlighting the state's history and culture.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Deer} + \text{Mountain} + \text{Deer} = 127$$

$$\text{Skier} \times \text{Skier} - 17 = 64$$

$$117 \div \text{Skier} = \text{Bison}$$

$$252 - \text{Bison} \times \text{Bison} = \text{Mountain}$$

$$\text{Mountain} + \text{Deer} \times \text{Skier} - \text{Bison} = ?$$

My Answer: ? = _____

Answer Key:

Mountains=83

Elk=22

Snowboarder=9

Buffalo=13

?=268

Fun Fact: Colorado is known as the "Centennial State" because it became a state in the year 1876, exactly 100 years after the United States declared its independence. Additionally, Colorado is home to the highest elevation of any state, with more than 1,000 peaks over 10,000 feet high and 54 towering above 14,000 feet, which includes the famous Rocky Mountains.
