

Name: _____

HAPPY CREATIVITY DAY!

Creativity Day is a day dedicated to unleashing the imagination and embracing innovative thinking, encouraging people of all ages and backgrounds to express themselves artistically and explore new ideas in various aspects of life.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Mug} + \text{Mug} = 10$$

$$\text{Venn} + \text{Venn} = 8$$

$$\text{Mug} - \text{Venn} = \text{Notebook}$$

$$\text{Mug} + \text{Venn} + \text{Notebook} = ?$$

My Answer: ? = _____

Answer Key:

Mug=5

Venn Diagram=4

Notepad=1

?=10

Fun Fact: Creativity Day was established to not only celebrate and encourage artistic expression in traditional forms like painting, writing, or music but also to recognize and inspire creativity in everyday life, from innovative problem-solving in the workplace to imaginative cooking at home. The day serves as a reminder that creativity isn't limited to artists and musicians; it's a valuable and enriching part of human experience that everyone can tap into, whether in crafting a novel, devising a new business strategy, or simply finding a unique way to organize a living space.
