# HAPPY DRIVE-THRU DAY!

Drive Thru Day, celebrated on July 24th, recognizes the convenience and popularity of drive-thru services, a symbol of fast-paced modern life, where customers can purchase food, drinks, and other goods without leaving their vehicles.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{burger} + \text{burger} + \text{burger} = \text{car}$$

$$\text{bag} - \text{burger} = 27$$

$$\text{bag} + 19 = \text{store}$$

$$30 = \text{car} + \text{car}$$

$$\text{burger} + \text{store} + \text{car} + \text{bag} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Burger=5

To-Go Bag=32

Restaurant=51

Car=15

**?=103**

**Fun Fact:** The first drive-thru is credited to Red's Giant Hamburg in Springfield, Missouri, which opened in 1947. This establishment is often recognized as the first restaurant to offer a drive-thru window service, a concept that revolutionized the fast-food industry. This innovation provided a new level of convenience for customers, allowing them to order and receive their food without ever having to leave their cars. The idea quickly caught on and became a staple feature of fast-food chains around the world, profoundly shaping the way people order and consume fast food.
