

Name: _____

HAPPY ELEPHANT DAY!

Elephant Awareness Day is an important day dedicated to raising awareness about the conservation of elephants and the challenges they face, such as habitat loss and poaching, emphasizing the need for protection and sustainable coexistence.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Elephant} + \text{Elephant} = 10$$

$$\text{Elephant} + \text{Paw} = 8$$

$$\text{Paw} + \text{Paw} + \text{Paw} = \text{Elephant}$$

$$\text{Elephant} - \text{Elephant} = ?$$

My Answer: ? = _____

Answer Key:

African Elephant=5

Footprint=3

Elephant Origami=9

?=4

Fun Fact: Elephants are known for their incredible memory and intelligence, often referred to as "having a memory like an elephant." This phrase is supported by scientific observations that elephants can remember routes to water sources over incredibly long distances and for many years. They also show remarkable social intelligence, engaging in complex social behaviors, showing empathy, and even mourning their dead, demonstrating a depth of emotional and cognitive abilities.
