Lesson Guide

This lesson guide accompanies the following video lesson:

Word Problem: Adding and Subtracting Multi-Digit Numbers

Taylor had 207 gummy bears in a bag. She bought 48 more gummy bears. If she gave 38 gummy bears to her sister, how many does Taylor have now?

(Show your work!)

Your Turn:

Gregory collects baseball cards. He started with 56 baseball cards in his collection. Then he added 198 more baseball cards to his collection. If he then traded 46 of his baseball cards to his friend in exchange for Pokémon cards, how many baseball cards does Gregory have now? (Show your work!)

Answer Key:

- 1.) She has 217 gummy bears**
- 2.) He has 208 baseball cards**
