Lesson Guide

This lesson guide accompanies the following video lesson:

Intro to Simplifying Fractions

Example 01

Observe the figure below divided into 14 equal-sized sections.
Write a fraction that is equivalent to the shaded region of the figure.

$$\frac{2}{14} = \frac{1}{7}$$

Because...

Example 02

Observe the figures below and write 2 fractions that is equivalent to the shaded regions of the figures

ANSWER KEY

1.) $2/14 = 1/7$

2.)

A) $6/10 = 3/5$

B) $6/12 = 3/6 = 1/2$

C) $12/18 = 6/9 = 2/3$
