# Lesson Guide

This lesson guide accompanies the following video lesson:

## Multiplying and Dividing Fractions Practice

### Example 01

Four street artists were asked to paint  $\frac{1}{5}$  of a wall mural.

They divided the section to be painted equally among the 4 artists.

**What fraction of the entire wall mural did each artist decorate?**

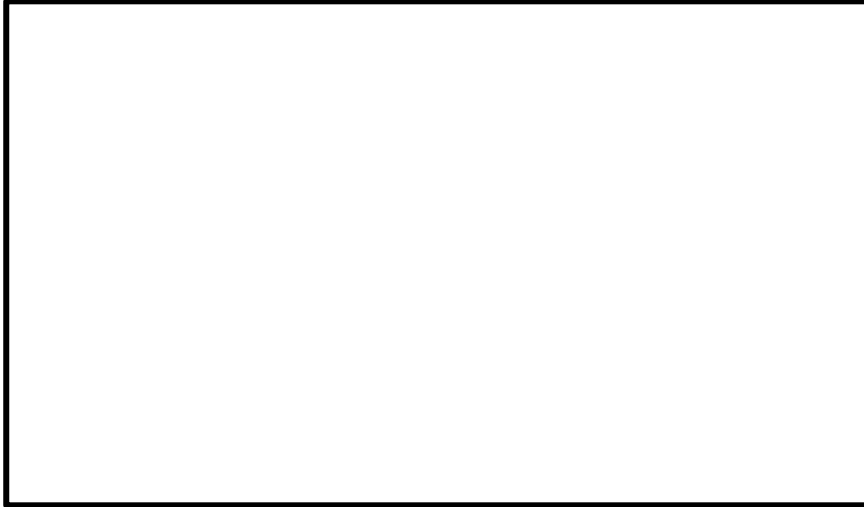

My Answer: \_\_\_\_\_

### Example 02: Your Turn

There are six landscapers tasked with mowing  $\frac{2}{3}$  of a plot of land.

The landscapers divided the sections of the land equally between the six of them.

**What fraction of the entire plot of land did each landscaper mow?**

**ANSWER KEY**

My Answer: \_\_\_\_\_

1.)  $\frac{1}{20}$

2.)  $\frac{2}{18}$  *or*  $\frac{1}{9}$
