Name: _____

Lesson Guide

This lesson guide accompanies the following video lesson:

Practice with Multiplying Multiples of 10

Daryl practiced playing his guitar 90 minutes each day for 5 days.
Shana practiced playing her guitar 60 minutes each day for 6 days.

What is the difference, in minutes, between the total amount of time Daryl played and the total amount of time Shana played?

(Show your work!)

My Answer: _____

Your Turn:

Carlie and Cristine are both driving across the country in separate cars. Carlie drives 70 miles during the first 6 days of her trip. Cristine drives 80 miles during the first 9 days of her trip.

What is the difference, in miles, between the total numbers of miles they driven by Carlie and Cristine?

My Answer: _____

Answer Key:

1.) The difference is 90 minutes

2.) The difference is 300 miles
