This lesson guide accompanies the following video lesson:

## Word Problem Practice: Discounts and Percents

*During a sale, a store offered a 30% discount on a pair of headphones that were originally priced at \$150. After the sale, the discounted price of the headphones is increased by 30%.*

*What is the price of the headphones after the increase?*

My Answer: \_\_\_\_\_

**ANSWER KEY**

*After the increase,  
the price of the  
headphones is \$136.50.*
