Lesson Guide

This lesson guide accompanies the following video lesson:

How to Read a Ruler

How can you measure lengths using a ruler?

How to Read a Ruler:

Practice: Measure each line using a ruler.

The image contains nine horizontal lines of varying lengths, arranged from top-left to bottom-right. Each line is accompanied by an empty rectangular box positioned to its right, intended for the student to write the measured length. The lines and boxes are arranged in a descending staircase pattern.
