# HAPPY HANUKKAH!

Hanukkah, the eight-day Jewish festival of lights, is joyously celebrated with the nightly lighting of the menorah, spinning the dreidel, enjoying delicious foods like latkes, and embracing the miracle of a small amount of oil burning for eight straight days.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Dreidel} + \text{Menorah} + \text{Dreidel} = 9$$

$$\text{Gift} = \text{Book}$$

$$\text{Gift} \times \text{Gift} \times \text{Book} = 8$$

$$\text{Dreidel} = \text{Book} - \text{Dreidel}$$

$$\text{Menorah} \times \text{Book} - \text{Dreidel} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Dreidel=1

Journal=2

Menorah=7

Presents=2

**?=13**

**Fun Fact:** The game of dreidel, a popular Hanukkah activity, involves spinning a four-sided top with Hebrew letters on each side; each letter represents a different action in the game, adding a playful twist to the holiday's traditions.
