# TWO TRUTHS & ONE LIE!

Use your math skills to determine which of the three statements below is a dirty lie! Explain how you made your decision.

## Hours Spent Practicing

Day	Hours Spent Practicing
10	2.0
16	3.5
24	5.0
32	6.5
40	8.0

- 1) The quantities are not proportional to each other.
- 2) When the day number is multiplied by 0.2, the result is number of hours spent practicing.
- 3) The total hours spent practicing by day 40 was more than twice the total hours reached on day 16.

My Answer: \_\_\_\_\_

Key: 2
