

Name: _____

WORLD HYPNOTISM DAY!

World Hypnotism Day, observed on January 4th, is dedicated to demystifying hypnotism, educating the public about its therapeutic benefits, and dispelling common myths, showcasing its application in areas like pain management, stress reduction, and self-improvement.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Hypnotist} + \text{Hypnotist} + \text{Hypnotist} = 9$$

$$\text{Hypnotist} + \text{Eye} = 7$$

$$\text{Hypnotist Wand} - \text{Eye} = 8$$

$$\text{Hypnotist Wand} + \text{Hypnotist} + \text{Eye} = ?$$

My Answer: ? = _____

Answer Key:

Patient=3

Eye=4

Watch=12

?=19

Fun Fact: A fun fact about hypnotism is that it's not just a stage trick; it's also used in medical settings for pain management and to alleviate anxiety, with some historical records showing its use in surgical procedures before modern anesthetics were available.
