Candy Shop=3

?=11

Fun Fact: Jelly beans were first associated with Easter in the 1930s. This association likely comes from their egg-like shape, making them a perfect addition to the Easter tradition of egg hunting and decorating. Jelly beans quickly became a staple in Easter baskets, alongside chocolate and other sweets, reflecting the holiday's theme of renewal and new life in spring. This tradition helped propel jelly beans to become one of the most popular candies during Easter celebrations.
