# HAPPY LEFT-HANDED DAY!

Left-Handed Day, celebrated on August 13th, is a day to acknowledge and celebrate the uniqueness of left-handed individuals, promoting awareness about the challenges and advantages they experience in a predominantly right-handed world.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Hand} + \text{Hand} + \text{Hand} = 21$$

$$\text{Arrow} + \text{Hand} + 8 = 27$$

$$\text{Pencil} - \text{Arrow} = \text{Hand}$$

$$\text{Pencil} + 51 = \text{Person}$$

$$\text{Person} + \text{Pencil} + \text{Hand} + \text{Arrow} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Hand=7

Arrow=12

Pencil=19

Thrower=70

**?=108**

**Fun Fact:** Only about 10% of the world's population is left-handed. This trait is believed to be influenced by a combination of genetics and environmental factors. Interestingly, left-handedness is more common in twins, and historical figures like Leonardo da Vinci and Albert Einstein were also left-handed, often leading to associations with creativity and exceptional problem-solving skills.
