

Name: _____

Long Division Practice: 4x4

Directions: Use long division to solve each of the following. Be sure to include the value of the remainder, even if it is zero.

$$5 \overline{) 61,814}$$

$$4 \overline{) 68,848}$$

$$23 \overline{) 19,386}$$

$$16 \overline{) 36,298}$$

ANSWER KEY

$$\begin{array}{r} 12,362 \text{ R}4 \\ 5 \overline{)61,814} \end{array}$$

$$\begin{array}{r} 17,212 \text{ R}0 \\ 4 \overline{)68,848} \end{array}$$

$$\begin{array}{r} 842 \text{ R}20 \\ 23 \overline{)19,386} \end{array}$$

$$\begin{array}{r} 2,268 \text{ R}10 \\ 16 \overline{)36,298} \end{array}$$
