

Name: _____

Long Division Practice: 4x4

Directions: Use long division to solve each of the following. Be sure to include the value of the remainder, even if it is zero.

$$6 \overline{)28,434}$$

$$7 \overline{)58,683}$$

$$21 \overline{)91,403}$$

$$42 \overline{)36,305}$$

ANSWER KEY

$$\begin{array}{r} 4,749 \text{ R0} \\ 6 \overline{)28,434} \end{array}$$

$$\begin{array}{r} 8,383 \text{ R2} \\ 7 \overline{)58,683} \end{array}$$

$$\begin{array}{r} 4,352 \text{ R11} \\ 21 \overline{)91,403} \end{array}$$

$$\begin{array}{r} 864 \text{ R17} \\ 42 \overline{)36,305} \end{array}$$
