# Long Division Practice (Possible Remainders) (A)

Directions: Use long division to find the quotient of each of the following. Be sure to include the remainder, even if it is zero.

$4\overline{)21}$	$5\overline{)53}$	$8\overline{)29}$
$4\overline{)25}$	$4\overline{)28}$	$4\overline{)30}$
$7\overline{)87}$	$6\overline{)23}$	$5\overline{)99}$
$7\overline{)82}$	$4\overline{)101}$	$3\overline{)39}$

$4\overline{)21}$ **5 R1**	$5\overline{)53}$ **10 R3**	$8\overline{)29}$ **3 R5**
$4\overline{)25}$ **6 R1**	$4\overline{)28}$ **7 R0**	$4\overline{)30}$ **7 R2**
$7\overline{)87}$ **12 R3**	$6\overline{)23}$ **3 R5**	$5\overline{)99}$ **19 R4**
$7\overline{)82}$ **11 R5**	$4\overline{)101}$ **25 R1**	$3\overline{)39}$ **12 R3**
