Name: _____

Measurement Word Problems (centimeters)

Tricia and Patti are using a measuring tape to measure the lengths of objects they find in the woods.

1. Tricia finds a stick that is 20 centimeters long. Patti finds a larger stick that is 7 centimeters longer than Tricia's stick. How long is Patti's stick?

2. Tricia finds a vine that is 25 centimeters long. If she breaks off a piece that is 5 centimeters long, what is the new length of the vine?

3. Patti and Tricia come across a field of bushes that grow wild berries. They find a blueberry bush that is 9 centimeters taller than a nearby raspberry bush. If the raspberry bush is 41 centimeters tall, how tall is the blueberry bush?

ANSWER KEY

   1.) 27 centimeters
   2.) 20 centimeters
   3.) 50 centimeters
