

Name: _____

HAPPY MONKEY DAY!

Monkey Day, celebrated on December 14th each year, is a playful and unique holiday where people appreciate and raise awareness about monkeys and other primates and their habitats, often through themed-events, educational activities, and fund raisers.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Monkey with heart} + \text{Monkey with heart} = 6$$

$$\text{Banana} - \text{Monkey with heart} = 13$$

$$\text{Banana} + \text{Palm tree} = 20$$

$$\text{Monkey with heart} + \text{Palm tree} = ?$$

My Answer: ? = _____

Answer Key:

Monkey=3

Bananas=16

Palm Tree=4

?=7

Fun Fact: Monkeys are incredibly smart and can use tools just like humans; for example, some monkeys use sticks to retrieve food from tight places or leaves as umbrellas, showing their clever problem-solving skills!
