

Name: _____

HAPPY PANCAKES DAY!

Pancake Day, celebrated on September 26th, is a delightful day dedicated to enjoying pancakes in all their varieties, from fluffy American stacks to thin French crêpes, celebrating this versatile and beloved breakfast dish across the globe.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Pancake} + \text{Syrup} = \text{Bowl}$$

$$49 = \text{Pancake} \times \text{Pancake}$$

$$\text{Bowl} = \text{Spatula} + \text{Spatula} + \text{Spatula}$$

$$\text{Syrup} - \text{Pancake} = 1$$

$$2 \times \text{Pancake} + 2 \times \text{Syrup} - \text{Spatula} = ?$$

My Answer: ? = _____

Answer Key:

Double-Symbols

A double-symbol is a grouping that can be interpreted as follows:

Pancake Stack=7

Syrup=8

Frying Pan=5

Mixing Bowl=15

?=25

$$\text{🥞🥞} = \left(\text{🥞} + \text{🥞} \right)$$

or

$$\text{🥞🥞} = \left(\text{🥞} \times 2 \right)$$

Fun Fact: Pancakes are one of the oldest forms of bread and have been enjoyed by cultures around the world for centuries. Archaeological evidence suggests that pancakes were a staple in prehistoric societies, with versions of this simple, flat cake made from ground grains and liquids being cooked on hot stones or in shallow pans. Over time, pancakes have evolved and diversified, with almost every culture having its own unique take on the dish, making them a truly universal food.
