

Name: _____

HAPPY PEANUT DAY!

Peanut Day, celebrated on September 13th, is a day dedicated to appreciating the humble peanut, a versatile and nutritious legume, enjoyed in various forms from roasted and salted to peanut butter and candies.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Peanut} + \text{Bowl of Peanuts} + \text{Peanut Butter} = \text{Pratt St Prant Stand}$$

$$\text{Peanut} - 9 \times \text{Peanut Butter} = \text{Bowl of Peanuts}$$

$$\text{Peanut} \div \text{Peanut Butter} = 15$$

$$\text{Peanut Butter} \times \text{Peanut Butter} - 21 = 100$$

$$\text{Pratt St Prant Stand} - \text{Peanut} + \text{Bowl of Peanuts} \times \text{Peanut Butter} = ?$$

My Answer: ? = _____

Answer Key:

Peanut=165

Bread=11

Bowl of Peanuts=66

Peanut Cart=242

?=803

Fun Fact: Despite their name and common association with nuts, peanuts are actually legumes, related to beans and lentils. They grow underground, unlike true nuts like walnuts and almonds, which grow on trees. This botanical classification is just one of the many unique aspects of peanuts, which are also known for their high protein content and presence in diverse culinary traditions around the world.
