

Name: _____

PHOTOGRAPHY MONTH!

Photography Month, celebrated in May, is a month-long celebration dedicated to the art and craft of photography, encouraging both professionals and amateurs to capture and share their world through the lens, and to appreciate the impact of photography on culture and history.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Camera Case} + \text{Lightning Bolt} + \text{Photo} = 57$$

$$6 \times 6 + 13 = \text{Photo}$$

$$\text{Camera Case} \times \text{Camera Case} \times \text{Lightning Bolt} = 64$$

$$\text{Photo} = \text{Camera} \times \text{Laptop}$$

$$\text{Camera Case} + \text{Camera} \times \text{Laptop} + \text{Photo} + \text{Lightning Bolt} = ?$$

My Answer: ? = _____

Answer Key:

Camera Bag=4

Flash=4

Photo=49

Camera & Laptop=7

?=64

Fun Fact: The first ever permanent photograph, titled "View from the Window at Le Gras," was taken by Joseph Nicéphore Niépce in 1826 or 1827 in France. It was captured using a process called heliography, which involved an eight-hour exposure. This groundbreaking image paved the way for the development of modern photography and marked the beginning of capturing moments and scenes that could be preserved and seen long after they occurred.
