

Name: _____

PIZZA PARTY DAY!

Pizza Party Day, celebrated on May 15th, is a deliciously fun holiday where people gather with friends and family to enjoy various types of pizzas, celebrating one of the world's most beloved and versatile dishes in a communal and festive atmosphere.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Pizza Slice} + \text{Pizza Slice} + \text{Pizza Slice} = 3$$

$$\text{Cup} - \text{Pizza Slice} = 10$$

$$\text{Cup} + \text{Pizza Cutter} = 13$$

$$\text{Pizza Slice} + \text{Cup} + \text{Pizza Cutter} = ?$$

My Answer: ? = _____

Answer Key:

Pizza=1

Cups=11

Pizza Cutter=2

?=14

Fun Fact: In the United States, an estimated 3 billion pizzas are sold each year, making it one of the country's most popular foods. On average, Americans eat approximately 46 slices (or 23 pounds) of pizza per person each year, highlighting the dish's immense popularity and its role as a staple in American dining.
