

Name: _____

HAPPY POPCORN DAY!

Popcorn Day, celebrated on January 19th, is a fun and crunchy holiday where people enjoy this beloved snack, often experimenting with a variety of flavors and toppings, and celebrating its long history as a popular treat at movies, fairs, sporting events, and cozy nights at home.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$102 = \text{Popcorn} + \text{Popcorn} + \text{Popcorn}$$

$$\text{Popcorn Cart} \times \text{Candy} \div 17 = 12$$

$$1 + \text{Butter} \times \text{Candy} = 67$$

$$\text{Popcorn} = \text{Popcorn Cart}$$

$$\text{Popcorn} + \text{Candy} \times \text{Butter} + \text{Popcorn Cart} = ?$$

My Answer: ? = _____

Answer Key:

Popcorn and Soda=34

Salt=6

Butter=11

Popcorn Cart=34

?=134

Fun Fact: Popcorn is one of the world's oldest snacks, with evidence of popcorn consumption dating back over 6,000 years; kernels found in caves in New Mexico were so well-preserved that they could still pop, highlighting the snack's enduring appeal through the ages.
