

Name: _____

HAPPY POPCORN DAY!

Popcorn Day, celebrated on January 19th, is a fun and crunchy holiday where people enjoy this beloved snack, often experimenting with a variety of flavors and toppings, and celebrating its long history as a popular treat at movies, fairs, sporting events, and cozy nights at home.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Popcorn bucket} + \text{Popcorn bucket} = 16$$

$$\text{Popcorn bucket} + \text{Popcorn bucket} = 14$$

$$\text{Popcorn cart} - \text{Popcorn bucket} = 4$$

$$\text{Popcorn bucket} + \text{Popcorn cart} = ?$$

My Answer: ? = _____

Answer Key:

Popcorn and Soda=8

Salt=6

Popcorn Cart=10

?=18

Fun Fact: Popcorn is one of the world's oldest snacks, with evidence of popcorn consumption dating back over 6,000 years; kernels found in caves in New Mexico were so well-preserved that they could still pop, highlighting the snack's enduring appeal through the ages.
