

Name: _____

UGLY SWEATER DAY!

Ugly Sweater Day, celebrated on the third Friday in December, is a fun and humorous holiday where people don festive sweaters featuring bold, often gaudy designs, embracing the joy and lightheartedness of the holiday season through quirky and over-the-top fashion.

TWO TRUTHS & ONE LIE!

Use your math skills to determine which of the three statements below is a dirty lie! Explain how you made your decision.

1)

	8
-----------------------------------------------------------------------------------	---

 →  = 16
 $\frac{26}{2} = 13$

2)

	8	
-------------------------------------------------------------------------------------	---	-------------------------------------------------------------------------------------

 →  = 12
 $\frac{32}{3} \approx 10.67$

3)

88	
----	-------------------------------------------------------------------------------------

 →  = 11
 $\frac{99}{9} = 11$

My Answer: _____

Answer Key: 1
