

Name: _____

HAPPY UNICORN DAY

Unicorn Day, celebrated on April 9th, is a magical and sparkly celebration dedicated to the mythical and majestic unicorn, inspiring people to embrace imagination and the wonder of all things enchanted.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Sneaky Unicorn} + \text{Sneaky Unicorn} = 10$$

$$\text{Purple Cat} - \text{Sneaky Unicorn} = 1$$

$$\text{Purple Cat} + \text{Mask} = 15$$

$$\text{Mask} + \text{Sneaky Unicorn} + \text{Purple Cat} = ?$$

My Answer: ? = _____

Answer Key:

Unicorn=5

Cat=6

Mask=9

?=20

Fun Fact: Although they are mythical creatures, unicorns have been a part of global folklore and legends for centuries, with the ancient Greeks actually believing them to be real animals living in a far-off land, and they were even described in natural history texts alongside "real" animals.
