

Name: _____

HAPPY WAFFLE DAY!

Waffle Day, celebrated on August 24th, is a delightful holiday originating from Sweden where people indulge in the joy of eating waffles, experimenting with various toppings and styles, from sweet syrup and fruit to savory options.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Waffle} + \text{Waffle} = 10$$

$$\text{Waffle} - \text{Syrup} = 2$$

$$\text{Butter} = \text{Syrup} + \text{Syrup}$$

$$\text{Waffle} + \text{Butter} + \text{Syrup} = ?$$

My Answer: ? = _____

Answer Key:

Waffle=5

Syrup=3

Butter=6

?=14

Fun Fact: The origin of waffles can be traced back to the Middle Ages. Initially, waffles were cooked over an open fire using two metal plates with wooden handles, featuring elaborate designs, often religious. These early waffles were far different from the sweet, syrup-topped treats we enjoy today, as they were typically unsweetened and used as communion wafers in churches.
