

Name: _____

WHIPPED CREAM DAY!

Whipped Cream Day, celebrated on January 5th, is a sweet and indulgent occasion that honors the light, fluffy topic loves worldwide, encouraging people to enjoy its creamy goodness on desserts, beverages, and more, enhancing flavors and adding a touch of delight.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Whipped Cream Dispenser} + \text{Whipped Cream Dispenser} + \text{Whipped Cream Dispenser} = 45$$

$$\text{Whipped Cream Dispenser} - \text{Mug} = \text{Cream Carton}$$

$$\text{Mug} \times \text{Mug} = 25$$

$$\text{Whipped Cream Dispenser} + \text{Ice Cream Sundae} + \text{Ice Cream Sundae} = 33$$

$$\text{Whipped Cream Dispenser} + \text{Mug} + \text{Cream Carton} + \text{Ice Cream Sundae} = ?$$

My Answer: ? = _____

Answer Key:

Whipped Cream Cannister=15

Heavy Cream Carton=10

Hot Cocoa=5

Ice Cream Sundae=9

?=39

Fun Fact: Whipped cream was originally called 'milk snow' (*neve di latte* in Italian or *neige de lait* in French) when it first appeared in recipes in the 16th century, reflecting its light, airy texture that resembled freshly fallen snow.
