# WHIPPED CREAM DAY!

Whipped Cream Day, celebrated on January 5<sup>th</sup>, is a sweet and indulgent occasion that honors the light, fluffy topic loves worldwide, encouraging people to enjoy its creamy goodness on desserts, beverages, and more, enhancing flavors and adding a touch of delight.

**Directions:** Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Whipped Cream Dispenser} + \text{Whipped Cream Dispenser} + \text{Whipped Cream Dispenser} = 18$$

$$\text{Cream Carton} - \text{Whipped Cream Dispenser} = 2$$

$$\text{Cream Carton} + \text{Cup of Whipped Cream} = 9$$

$$\text{Whipped Cream Dispenser} + \text{Cup of Whipped Cream} + \text{Cream Carton} = ?$$

My Answer: ? = \_\_\_\_\_

Answer Key:

Whipped Cream Cannister=6

Heavy Cream Carton=8

Hot Cocoa=1

**?=15**

**Fun Fact:** Whipped cream was originally called 'milk snow' (*neve di latte* in Italian or *neige de lait* in French) when it first appeared in recipes in the 16th century, reflecting its light, airy texture that resembled freshly fallen snow.
