

Name: _____

WORLD WILDLIFE DAY!

World Wildlife Day, observed on March 3rd each year, is a global celebration aimed at raising awareness about the world's wild animals and plants, highlighting the critical need for conservation efforts to protect them and their natural habitats.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$12 = \text{lion} + \text{lion} + \text{lion}$$

$$10 - \text{lion} = \text{whale}$$

$$\text{whale} + \text{whale} = \text{eagle}$$

$$\text{whale} + \text{lion} + \text{eagle} = ?$$

My Answer: ? = _____

Answer Key:

Lion=4

Whale=6

Eagle=12

?=22

Fun Fact: World Wildlife Day was proclaimed by the United Nations in 2013 to coincide with the signing of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) on March 3, 1973. This day is not only a celebration of the many beautiful and varied forms of wild fauna and flora but also a reminder of the urgent need to step up the fight against wildlife crime and human-induced reduction of species, which have wide-ranging economic, environmental, and social impacts.
