

Name: _____

WORLD COFFEE DAY!

World Coffee Day, celebrated on October 1st, is a global event dedicated to honoring and enjoying coffee, a beloved beverage, while also recognizing the efforts of those involved in its cultivation, processing, trading, and brewing.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Cup} + \text{Cup} + \text{Cup} = 9$$

$$\text{Beans} + \text{Cup} = 5$$

$$\text{Farmer} - \text{Beans} = 4$$

$$\text{Cup} + \text{Farmer} + \text{Beans} = ?$$

My Answer: ? = _____

Answer Key:

Mug=3

Beans=2

Farmer=6

?=11

Fun Fact: Brazil is the largest coffee producer in the world, contributing about a third of the global coffee supply. The country's dominance in coffee production dates back to the early 18th century, and today, it's known for its vast coffee plantations that cover thousands of acres, primarily in the southeastern states. The scale of coffee farming in Brazil is so extensive that it can even influence global coffee prices. This makes South America not just a significant region for coffee production but also a key player in the global coffee market.
