

Name: _____

WORLD PHOTO DAY!

World Photo Day is a global event that honors the art and science of photography, encouraging people to share their world through their lens, and to appreciate the power of photographs in capturing and conveying human experiences and the beauty of the world around us.

Directions: Use your math skills to find the value of each icon and the '?' in the puzzle below.

$$\text{Camera} + \text{Camera} + \text{Camera} = 60$$

$$\text{Stack of 3 photos} = 200 \div \text{Camera}$$

$$\text{Stack of 3 photos} \times \text{Stack of 3 photos} = \text{Roll of film}$$

$$\text{Roll of film} - \text{Drone} = 75$$

$$\text{Camera} + \text{Drone} + \text{Stack of 3 photos} = ?$$

My Answer: ? = _____

Answer Key:

Camera=20

Film=100

Photos=10

Drone=25

?=55

Fun Fact: World Photo Day marks the date in 1839 when the French government officially announced the invention of the daguerreotype, a pioneering photographic process developed by Louis Daguerre, as a gift "free to the world." This announcement represents a significant milestone in the history of photography, laying the foundation for the development of modern photography.
