

Name: _____

Measurement Word Problems (inches)

Tricia and Patti are using a measuring tape to measure the lengths of objects they find in the woods.

1. Tricia finds a stick that is 20 inches long. Patti finds a larger stick that is 7 inches longer than Tricia's stick. How long is Patti's stick?

2. Tricia finds a vine that is 25 inches long. If she breaks off a piece that is 5 inches long, what is the new length of the vine?

3. Patti and Tricia come across a field of bushes that grow wild berries. They find a blueberry bush that is 9 inches taller than a nearby raspberry bush. If the raspberry bush is 14 inches tall, how tall is the blueberry bush?

ANSWER KEY

- 1.) 27 inches
- 2.) 20 inches
- 3.) 25 inches
